

**MMTS**

---

## PROTOCOL FOR ALL CROPS

ROW CROPS- 8-16 ozs of MMTS Sugar per acre mixed with any other spray. Not to exceed 3 lbs per acre per year.

SPECIALTY CROPS- Depending on the amount of times you spray a crop. Split 3 to 4 lbs per acre per year.

MMTS Sugar is compatible with most all sprays. It is best to dissolve the MMTS Sugar in water before adding it to the spray mix.
