

GROWER: ATHLETIC TURF MANAGEMENT MAINTENANCE

LOCATION: OSPREY, FL

CROP: TURF

RESULTS:

“For the past 3 years we have used Mr. Helms as a consultant for our turf company. We like to refer to him as Dr. Helms, as he takes his soil samples, and then writes us a program for our soils using the C-CAT products. WE use them on soccer fields, baseball, football, and all other athletic fields in a three county area. As we went thru a drought period, we have seen that our fields did not show the stress that was seen prior to using the product. We recommend that you try Mr. Helm’s product called C-CAT for yourselves and we assure you that you will see the same results we have experienced or better.” Bob Hall
