**GROWER: BETHEL FARMS**

**LOCATION: ARCADIA, FLORIDA**

**CROP: SOD**

**RESULTS:**

“C-CAT has been used in all areas of our operation. We have seen increase in tensile strength and a good root mass, which helps in lifting. Stress levels seem to be lower where we used C-CAT. I would recommend this product to other growers. It is a good amendment for fertilization and we had no problems with phototoxicity.”
