

GROWER: Bill Knoderer Farms

CROP: Soybeans

APPLICATION METHOD: Foliar sprayed C-CAT twice during the growing season

1st application: 2 quarts of C-Cat at Pre- Bloom
2nd application: 2 quarts of C-CAT at Mid-Bloom

RESULTS:

On the irrigated fields it yielded a **5** bushel increase.

On the non-irrigated fields it yielded a **12** bushel increase.

GROWERS COMMENTS:

"See me next year because I want to be sure to use it on all my fields." Bill Knoderer
