

**GROWER: WILLIAM PALSA**

**LOCATION: WYNNE, AR**

**CROP: WHEAT**

**APPLICATION METHOD: Mixed in with the fungicide.**

**RATES: 1 ½ gallons per acre**

**RESULTS: “We used C-CAT with a fungicide, and were really happy with our yields. We are really impressed with how it helped our yields on our marginal , weaker ground, it brought those yields up to 90 plus bushels.”**
