1 - 0 - 1

Total Nitrogen (N) 1%

Soluble Potash (K₂O) 1%

Derived from guayule protein hydrolysate, soy protein hydrolysate, and sulfate of potassium

GUAYULE PROTEIN HYDROLYSATE (trade name ISOPLEX™) licensed exclusively from Biondel AG Inc.

COMPLEX is designed to deliver nitrogen and potassium efficiently to optimize nutrient levels to enhance rooting, yield and quality. Use **COMPLEX** in addition to a primary fertility program.

DIRECTIONS FOR USE: Mix the recommended rate of **COMPLEX** with 5-10 gallons of water per acre. **COMPLEX** can be applied in furrow, broadcast sprayed, fertigated, or foliarly. **COMPLEX** can be mixed with fertilizers, herbicides and fungicides. If compatibility is unknown conduct a jar test.

RECOMMENDED RATES: For Seed Treatment, use 2oz/100 lbs of seed. For in-furrow application at planting, use 4oz/acre. For post emergence foliar application or fertigation, use 8oz/acre.
